

'Wowing' Customers with Customer Service

Application Bulletin #5 Issue Date: May 2017

Customer

Anyone and everyone who has questions about float switches and liquid level controls, needs help with an application or order, or just wants to talk to a real person!

Application

Food and beverage, paints and coatings, potable and non-potable water, chemicals – any fluid that requires level sensing and control.

Problem

Companies with impersonal and sometimes unpleasant service, getting lost in automated chats, FAQs and forums, receiving a sales pitch instead of an answer.

Solution

Friendly, local and in-house Madison customer service! With well over 20 years of accumulated expertise, our knowledgeable team can help you with anything from selecting the right product, to placing/tracking an order, to troubleshooting an installation. And they even remember to ask about your day!

Madison, can you help me? I don't know which product I need!

Sure thing! How are you doing today?
